# Optical SERVICES

# Scope Repair

We are pleased to offer Rigid, Semi-Rigid, and Flexible scope repair services at substantial savings. Our repair department is staffed with factory-trained technicians. Their combined experience enables them to service any brand of scope.

Replacement parts meet or exceed original manufacturer specifications. We use class VI adhesives, and our components are Sterad, Steris, and autoclave compatible.

All scopes are shipped overnight. Rigid scopes require 2 working days. All others will be estimated.

We will:

1. Limit down time
2. Reduce cost of repair or replacement
3. Provide repair expenditure reports
4. Consult regarding in-hospital cost saving strategies
5. Coordinate loaners when available

We offer the following guarantees:

1. 90 day parts and labor
2. 6 month warranty on rebuilds
3. 2 million liability insurance

We further offer in-service training and on-site evaluation of scope handling and cleaning procedures to further save you money and down time.

**“We can provide used, current, optical equipment at very substantial savings!”**

# Pricing

## Rigid:

Minor repair \$395.00 (Single rod, eye piece, light cone or polish only)  
Any standard repair \$595.00 (Rod and Objective Lens included)
